Multiply the benefits to your business!

FREE training opportunities for your employees for increased numeracy skills in the workplace.

Why investing in your staff just adds up!

Improve your employees' understanding of numbers and ICT skills to help them adapt, progress and prosper in today's quickly changing world.

Multiply the benefits to your employees

- Improved confidence with numbers
- Development of digital skills as a vehicle towards increased proficiency with numbers
- Accredited qualification from SCQF level 3 to SCQF level 5
- More confident learners building the foundations of their skills development
- Progressing within the business and working towards career goals

Multiply the benefits to your business

- Motivated and valued employees
- Employees who learn more confidently
- Employees with higher career aspirations
- Increased business productivity and efficiency
- Improved access towards further skills development in line with business objectives

Training sessions will be fun, interactive and relate to real-world business scenarios. Staff will be fully supported throughout by the tutor. Delivery can be contextualised to suit your employers and business need.
